

## Florida Green Lodging Certification Program

Proud To Be  
A Green Hotel

Earning the One Palm Designation  
for a Florida Green Lodge

The Lago Mar Resort & Club is proud to participate in a variety of environmental sustainability practices aimed at protecting and conserving Florida's natural environment.

### **Guest Room Initiatives:**

- Towel and Linen Card: Place this card on your bed for a fresh set of linens. Please leave towels to be washed on the floor or hand towels you wish to reuse on the rack. Your choices make a big difference. Together we can conserve water, our most precious resource, reduce chlorine and detergent use.
- An HVAC System sensors turn off the air conditioner when sliding glass doors to balconies are opened and restarts after door is closed.
- Energy-efficient windows
- Low Flow shower heads
- Faucet aerators
- High Efficiency Lighting

### **Public Areas and Non-Public Area Initiatives:**

- Energy efficient compact fluorescent bulbs
- Programmable timers or sensors controlling air conditioning in low-traffic areas.
- Water-conserving urinals
- All outdoor lighting has timers or photo sensors
- Recycling receptacle for disposal of all paper and plastic located near the Ocean Grill

### **Back of the House Initiatives:**

- Recycle corrugated cardboard and office paper as well as plastic, aluminum cans, newspapers, magazines, ink cartridges, glass, fluorescent bulbs, batteries and others

The Lago Mar Green Team's initiatives are continuously evolving. If you have any suggestions that could enhance our environment program, please complete our in-room comment card.
